Materials

SciGlyph is a newly incorporated, research based private limited company, aimed at solving the world's requirement in the field of natural sciences and engineering (NSE), located in the vibrant city of Patna, Bihar, India. A group of research scholars from IITs with different research backgrounds started SciGlyph in 2020 where other innovative minds can research together to build an eco-friendly society.

### What you get?

- Personal and professional development
- Corporate culture exposure
- Internship certificate
